

The Firenock™ Advantage

- Firenock for Target will auto shut off after 15-20 seconds once it has been activated. Thus the light is only lit at the most effective/important moment.
- Focus beam LED; visible even under broad day light without instrument for up to 65 yards.
- Firenock with its standard battery will stay lit for hundreds of shots.
- Firenock turns on automatically when you fire the arrow, no physical contact (button) is required.
- Firenock is easy to install; no battery stopper; no glue, no heat, or no other tool is needed.
- Optional Extreme Shock Battery End Cap for video screen darting without worry about damaging the nock.
- No expensive single use mini light stick.
- Firenock is amazingly light weight (~25 grains with the nock).
- No protruding metal prongs to damage your arrow shaft.
- Firenock is a shock and knock proof design (with O-ring).
- Gold plated battery connector for extra reliability.
- Firenock is a spin balanced design (with O-ring).
- 3 matched-weight practice nocks are included.
- Battery is field changeable.
- Nock is field changeable.
- Firenock is proudly designed in the heartland of the US in Henry, Illinois. (a city of 2600 people and 5000 deer within the surrounding areas)

UPC Code / Proof of Purchase

**See inside for installation manual
or visit www.firenockintl.com**
